The PayFast sandbox allows you to test the various components of your payment integration. Note that sandbox uses a virtual wallet in place of all the payment methods. Apart from that, you will be able to test your custom integration, including recurring billing payments, ITNs, order updates on your site, API tests / cURL calls, as well as Pay Now buttons and our plugins.

Account Information

Your unique credentials for testing. You can also use these details for testing outside of the sandbox.

Merchant ID:	10043041
Merchant Key:	fzafq2v61er9z
Sandbox URL:	https://sandbox.payfast.co.za/eng/process
Salt Passphrase: ❓
